WASTE MATERIALS BIODEGRADATION
Research Titles

1/3 SIZE SPECIMEN ISSUE

The Biodeterioration Information Centre was set up in 1965 to ovide an information service on the deterioration of materials by ving organisms and its control. Since that time there has been owing interest in the problems of waste disposal and the BIC has flected this in its research projects and through its publications, ternational Biodeterioration Bulletin (IBB) and Biodeterioration search Titles (BRT).

The amount of documents being collected by BIC on aspects of ste treatment is now such that it is felt that a new bibliographic urnal to cover this topic is necessary.

This new publication, WASTE MATERIALS BIODEGRADATION Research tles (WMB) will cover the sections on waste biodegradation formerly vered by BRT (section 01, 03, 50), although any material of relevance both biodeterioration and wastes biodegradation will appear in both blications. In addition much new material not previously covered by T will be included in WMB. Initially some 2000 references per year e anticipated for WMB.

This specimen issue of WMB includes a short selection of the type items which will be covered in the definitive issues. A typical arterly issue will be about three times this size.

The subscription for WMB is £10 p.a. and an order form is included. e final decision to publish in 1974 will depend on these initial ders, so please place your order as soon as possible.

Order should be sent to:-

Biodeterioration Information Centre,
The University of Aston in Birmingham,
80 Coleshill Street,
Birmingham,
England. B4 7PF.

NOTES FOR USERS

Entries are arranged under the appropriate section in the classification (see page i), with cross references as appropriate.

Entries consist of :

(1) an accession number, (2) title of article, (3) annotations to the title, separated from the title by an asterisk, (4) authors' names, (5) address of first author (where an address is not of the first author this is indicated by an asterisk against the name of the respective author), (6) journal title, abbreviated in accordance with British Standard BS4148:1970, (7) year of publication, (8) volume and/or issue number (issue number always in brackets), (9) page numbers, (10) language of document (capital letter) and summaries (lower case) according to the abbreviations list below, (11) any other information e.g. ISBN, price etc.

Language Abbreviations

Ar. Arabic; Bg. Bulgarian; Ch. Chinese; Cr. Croatian; Da. Danish; De. German; Ee. Estonian; En. English; Es. Spanish; Fi. Finnish; Fr. French; Gr. Greek; Hu. Hungarian; It. Italian; Ja. Japanese; La. Latin; Lv. Latvian; Nl. Dutch, Flemish; No. Norwegian; Pl. Polish; Pt. Portuguese; Ro. Romanian; Ru. Russian; Sh. Serbo-Croat; Sk. Slovak; Sr. Serbian; Sv. Swedish; Tr. Turkish; Uk. Ukranian.

GENERAL

73 001
Waste disposal: a general review. SKITT, J. (Cleansing & Transport Dep., City of Stoke-on-Trent, England.) *Chem. Engr.* 1973, (270) 55-60. En.

LEGISLATION & STANDARDS

73 002
Legislation on the quality of waste waters. *Switzerland. MULLER, E. *Textilveredlung* 1973 (1) 6-8. De. en.

See also: 126.

ECONOMICS

73 003
Public price support as an incentive to the use of solid waste as a resource. *Economics. GILL, G.S. (Dep. Agric. Econ., Univ. Calif., Berkeley, Ca., U.S.A.) *Compost Sci.* 1973, 14 (2) 18-21. En.

73 004
A general perspective concerning the cost of pollution abatement at any specified level. *Waste treatment. Economics. Mathematical models. HOLM, R.A. (Inst. Pap. Chem., Appleton, Wi.54911, U.S.A.) *Tappi* 1973, 56 (3) 126-130. En.

See also: 077, 089, 090.

PLANNING & PLANT DESIGN

73 005
The PERT way of planning pollution control projects. *Program evaluation and review technique. CHEREMISINOFF, P.N.; HABIB, Y.H. (Engelhard Minerals & Chem. Corp., Newark, NJ., U.S.A.) *Pl. Engng.* 1973, 27 (5) 90-93. En.

73 006
Modelling regional waste water treatment systems. *Mathematical model. DEININGER, R.A.; SU, S.Y. (Sch. Publ. Hlth., Univ. Michigan, Ann Arbor, Mi. 48104, U.S.A.) *Wat. Res.* 1973, 7 (4) 633-646. En.

73 007
Simple algorithm for cost optimization of a three decision variable system. *Application to waste treatment plants. ORDON, C.J. (Civ. Engng. Dep., Wayne State Univ., Detroit, Mi., U.S.A.) *Wat. Sewage Wks.* 1973, 120 (2) 70-73. En.

EQUIPMENT

73 008
Wastewater cleanup equipment 1973. 2nd edition. *United States. Directory. NOYES DATA CORPORATION. Park Ridge, N.J., Noyes Data Corpn., 1973, 372pp. En. ISBN 0-8 155-0487-X. Price $36.

See also: 018.

INDIVIDUAL PLANTS

73 009
Temporary small purification plant. *Sewage. Biological treatment. WEBER, H. *Gesundheitstechnik* 1973, 7 (5) 99-102. De.

73 010
The Co-op wastewater treatment plant: how industry and the municipal government of a small town joined forces to find an economic combined solution to their water pollution problems. SPRATT, T.J. (Acme Mkts. Inc., Hurlock, Md., U.S.A.) *Pl. Engng.* 1973, 27 (3) 71-73. En.

73 011
Updating a wastewater treatment plant with automatic controls. YORGEY, W.B. (Western Electric Co., Allentown, Pa., U.S.A.) *Pl. Engng.* 1973, 27 (4) 178-182. En.

73 012
Physical chemical treatment of sewage in the U.S. *Survey of experimental installations. MASKELL, A.D. *Process Biochem.* 1973, 8 (6) 11-13. En.

73 013
New sewerage and sewage disposal scheme for the Borough of King's Lynn. *U.K. PHAROAH, D.F.H. *Wat. Wat. Engng.* 1973, 77 (924) 58-62. En.

HYGIENE & PATHOGENS

73 014
Survival of *Salmonella typhimurum* in animal manure disposal in a model oxidation ditch. WILL, L.A.; DIESCH, S.L.; POMEROY, B.S. (Dep. Vet. Microbiol. Pub. Hlth., Univ. Minnesota, St. Paul, Mn.55101, U.S.A.) *Am. J. Publ. Hlth.* 1973, 63 (4) 322-326. En.

73 015
Drug resistance of coliform bacteria in hospital and city sewage. GRABOW, W.O.K.; PROZESKY, O.W. (Natn. Inst. Wat. Res., CSIR, Pretoria, South Africa.) *Antimicrob. Agents Chemother.* 1973, 3 (2) 175-180. En.

73 016
Health hazards from wastewater treatment practices. *Airborne bacteria. LEDBETTER, J.O.; HAUCK, L.M.; REYNOLDS, R. (Coll. Engng., Univ. Texas, Austin, Tx., U.S.A.) *Envir. Lett.* 1973, 4 (3) 225-232. En.

73 017
Occurence of *Salmonella* in oxidation ditches. *Elimination. Evaluation. KAMPELMACHER, E.H.; JANSEN, L.M.VN. (Natn. Inst. Publ. Hlth., Bilthoven, Netherlands.) *J. Wat. Pollut. Control Fed.* 1973, 45 (2) 348-352. En.

See also: 085.

ANALYSIS & SAMPLING

73 018
Automatic samplers for sewage and effluent. *U.K. Survey of equipment. LEWIN, V.H.; LATTEN, A. *Process Biochem.* 1973, 8 (6) 15-17. En.

73 019
A method to determine reaction kenetic data for waste treatment. *BOD. BOES, M.; HARTMANN, L. (Univ. Karlsruhe, D-7500 Karlsruhe 1, Germany.) *Wat. Res.* 1973, 7 (4) 547-557. En.

73 020
Orthophosphate determinations using premeasured reagents. BASKETT, R.C. (Dep. Microbiol., Univ. Missouri, Columbia, Mo. 65201, U.S.A.) *Wat. Sewage Wks.* 1973, 120 (1) 47. En.

73 021
A method for the determination of toxicity of pollutants in water and effluent to bacteria. *Aeromonas hydrophila. SCHUBERT, R.H.W. (Zent. Hyg., D-6 Frankfurt a.M., Germany.) ZentBl. Bakt. Hyg. I B 1973, 156 (6) 545-550. De. en.

See also: 095, 161, 162.

FRESHWATER POLLUTION

73 022
Sources of nutrients in Canadarago Lake. *Eutrophication. Wastewater. Land runoff. HETLING, L.J.; SYKES, R.M. (N.Y. Dep. Envir. Conserv., Albany, N.Y., U.S.A.) J. Wat. Pollut. Control Fed. 1973, 45 (1) 145-156. En.

73 023
Slime inhabiting geofungi in a polluted stream (winter/spring). *Sewage effluent. NOELL, J. (Dep. Biol., Washington Univ., St. Louis, Mo.63130, U.S.A.) Mycologia 1973, 65 (1) 57-66. En.

73 024
Observations on the utilization of soluble nitrogen by aquatic fungi in water. *Cellulosic substrates. WILLOUGHBY, L.G.; REDHEAD, K. (Freshwater Biol. Ass., Ambleside, Westmorland, England.) Trans. Br. Mycol. Soc. 1973, 60 (3) 598-601. En.

See also: 111, 161-163.

MARINE POLLUTION

73 025
Microbial community structure in contaminated estuarian sediments. *Industrial wastewater. Pollution. ROACH, A.; SILVEY, J.K.G.; GUTHRIE, R.K. (Dep. Biol. Sci., N.Texas State Univ., Denton, Tx., U.S.A.) J. Wat. Pollut. Control Fed. 1973, 45 (2) 365-368. En.

73 026
Organic mercury compounds in coastal waters. FITZGERALD, W.F.; LYONS, W.B. (Mar. Sci. Inst., Univ. Connecticut, Groton, Ct.06340, U.S.A.) Nature 1973, 242 (5398) 452-453. En.

See also: 044-046, 114, 117.

CHEMICAL & PHYSICAL WASTE TREATMENT

73 027
Reduction of BOD and phosphate by chemical precipitation. Utilisation of sludge. *Liquid waste. HOSENFELD, E.; LIEBIG, W. Chem. & Ind. 1973, (12) 565-567. En.

73 028
Effluent clarification: can it be improved? *Coagulation. Flocculation. DELAINE, J. Envir. Pollut. Mgmt. 1973, 3 (1) 37, 39, 41, 42. En.

73 029
Sludge thickening by flotation. *Sewage. HILMER, A. Process Biochem. 1973, 8 (5) 26-28. En.

73 030
Electrochemical process for effluent. *"Electro-M" process. NOBLE, J.G. Process Biochem. 1973, 8 (6) 19, 20, 34. En.

73 031
Chemical pretreatment before biological treatment in sewage plants. ERICSSON, B. (VBB-Vattenbyggnadsbyran, Stockholm, Sweden.) Wat. Res. 1973, 7 (1-2) 227-247. En.

See also: 090.

BIOLOGICAL WASTE TREATMENT

73 032
Flow through time in trickling filters. *Waste treatment. Effect on BOD. CRAFT, T.E.; INGOLS, R.S. (Engng. Exp. Stn., Georgia Inst. Technol., Atlanta, Ga., U.S.A.) Wat. Sewage Wks. 1973, 120 (1) 78-79. En.

73 033
Restoring a dead trickling filter. *Aluminium hydroxide slime. INGOLS, R.S.; HUIE, E.L. (Engng. Exp. Stn., Georgia Inst. Technol., Atlanta, Ga., U.S.A.) Wat. Sewage Wks. 1973, 120 (2) 64-65. En.

73 034
Deep-bed filtration of an effluent from a biological -chemical system. RIPLEY, P.G.; LAMB, G.L. Wat. Sewage Wks. 1973, 120 (6) 66 et seq. En.

See also: 031

COMPOSTING

73 035
Composting: process parameters. GRAY, K.R.; BIDDLESTONE, A.J. (Dep. Chem. Engng., Univ. Birmingham, Birmingham 15, England.) Chem. Engr. 1973 (270) 71-76. En.

73 036
Composting: application to municipal and farm wastes. BIDDLESTONE, A.J.; GRAY, K.R. (Dep. Chem. Engng., Univ. Birmingham, Birmingham 15, England.) Chem. Engr. 1973 (270) 76-80. En.

73 037
Controlling environmental parameters for optimum composting. 1. Experimental procedures and temperature. JERIS, J.S.; REGAN, R.W. (Manhattan Coll., Bronx, NY.10471, U.S.A.) Compost Sci. 1973, 14 (1) 10-15. En.

73 038
Controlling environmental parameters for optimum composting. 2. Moisture, free air space and recycle. HERIS, J.S.; REGAN, R.W. (Manhattan Coll., Bronx, NY. 10471, U.S.A.) Compost Sci. 1973, 14 (2) 8-15. En.

See also: 058, 061, 065, 097, 099.

ACTIVATED SLUDGE

73 039
Enhanced nitrification by addition of clinoptilolite to tertiary activated sludge units. SIMS, R.C.; LITTLE, L.W. (Dep. Envir. Sci. & Engng., Univ. N. Carolina, Chapel Hill, NC.27514, U.S.A.) Envir. Lett. 1973, 4 (1) 27-34. En.

73 040
Cell replication and biomass in the activated sludge process. SPEECE, R.E.; ENGELBRECHT, R.S.; AUKAMP, D.R. (Dep. Sanit. Engng., Univ. Illinois, Urbana, Il., U.S.A.) Wat. Res. 1973, 7 (3) 361-374. En.

73 041
Feed forward control of an activated sludge process. BRETT, R.W.J.; KERMODE, R.I.; BURRUS, B.G. (Univ. Kentucky, Lexington, Ky., U.S.A.) *Wat. Res.* 1973, 7 (4) 525-535. En.

See also: 150.

STABILISATION PONDS

See: 88.

DIGESTION

See: 094, 107, 134.

WASTE DISPOSAL

RECLAMATION

73 042
The salvage and recycling of useful materials. PEARSON, D.; WEBB, M. (Warren Spring Lab., Stevenage, Herts., England.) *Chem. Engr.* 1973 (270) 89-93. En.

LANDFILL

73 043
Do landfill sites make good neighbors. *Milling of refuse before dumping largely eliminates rats and other nuisances. MINNICH, J. *Compost Sci.* 1973, 14 (1) 22-24. En.

MARINE DUMPING

73 044
Implications of disposal of wastes to the North Sea, Effects on living resources, especially fisheries. COLE, H.A. *Chem. & Ind.* 1973 (4) 162-166. En.

73 045
Disposal of liquid industrial wastes to the marine environment. MADELEY, J.R. (I.C.I. Ltd., Brixham, Devon, England.) *J. Inst. Fuel* 1973, 46 (383) 63, 65-69. En.

73 046
Ecological significance of the discharge of treated wastewaters into coastal waters. HLAVKA, G.E. (S. Calif. Coastal Wat. Res. Proj., 1100 Glendon Ave., Los Angeles, Ca.90024, U.S.A.) *J. Milk Fd. Technol.* 1973, 36 (1) 23-27. En.

73 047
Hawaii's experiment with ocean disposal of baled wastes. BOGOST, M.S. (Off. Envir. Qual. Contr., Honolulu, Hawaii, U.S.A.) *Mar. Technol. Soc. J.* 1973, 7 (1) 34-37. En.

REUSE OF WATER

See: 151, 155, 159.

BIOLOGICAL UPGRADING - FOOD & FEEDS

73 048
The use of methane-utilising bacteria as a source of protein for young chicks. **Methylococcus capsulatus. Methylomonas albus.* D'MELLO, J.P.F. (Dep. Agric. Biochem., Edinb. Sch. Agric., Edinburgh, Scotland, EH9 3JG) *Br. Poultry Sci.* 1973, 14 (3) 291-301. En.

73 049
Methanol-bacterium process for SCP. *Single cell protein. Animal feed supplement. MACLENNAN, D.G.; GOW, J.S.; STRINGER, D.A. *Process Biochem.* 1973, 8 (6) 22-24. En.

73 050
Conversion of organic waste into marketable protein. Report on study to be carried out by Wolfson Lab. for Biology of Industry and Peter Ward Associates. *Microbiological processes. CARTWRIGHT, P. *Publ. Cleansing* 1973, 63 (2) 57-61. En.

73 051
Proteins from hydrocarbons 1973. GUTCHO, S. Park Ridge, N.J., Noyes Data Corpn., 1973, 221pp. En. *Fd. Technol. Rev.* no. 4. ISBN 0-8155-0480-2. Price $24.

See also: 084, 098, 102.

BIOLOGICAL UPGRADING - OTHER

73 052
Metal sulphides biodegradation by *Thiobacillus ferrooxidans*: effect of their total surfaces. *Leaching. Copper, nickel extraction. TORMA, A.E.; LEGAULT, G. *Ann. Microbiol.* 1973, 124A (1) 111-121. Fr. en.

73 053
Leaching: use of a thermophilic and chemoautotrophic microbe. *Oxidation of reduced sulphur and iron compounds. Leaching of molybdenite and chalcopyrite. Molybdenum and copper extraction. BRIERLEY, C.L.; MURR, L.E. *Science* 1973, 179 (4072) 488-490. En.

73 054
Use of bacteria in metal extraction. **Thiobacillus*. Copper. Uranium. Leaching. KOHLER, A. (Tech. Hochsch., Aachen, Germany.) *Umschau Wiss. Tech.* 1973, 73 (1) 26. De.

See also: 112.

LAND TREATMENT

73 055
Denver sewage sludge recycled on the land. SABEY, B.R.; DANFORD, J.; CHAMPLIN, H.H. (Agron. Dep., Colorado State Univ., Fort Collins, Co., U.S.A.) *Compost Sci.* 1973, 14 (1) 4-6. En.

73 056
Utilization of municipal solid waste compost: research results at Muscle Shoals, Alabama. *Land treatment. TERMAN, F.L.; MAYS, D.A. (Tennessee Valley Author., Muscle Shoals, Al., U.S.A.) *Compost Sci.* 1973, 14 (1) 18-21. En.

73 057
Sewage sludge produces hay. *Land treatment. LAMB, C. *Compost Sci.* 1973, 14 (1) 28-29. En.

73 058
Utilization of municipal refuse compost. 1. Field scale compost demonstrations. *Soil treatment. DUGGAN, J.C. *Compost Sci.* 1973, 14 (2) 24-25. En.

73 059
Forage/surface irrigation with waste water biodegrades solids on grass surfaces; reduces waste water treatment costs 20-30%; saves estimated $2 million capital expense. MORLOCK, J. *et al.* *Fd. Process.* 1973, 34 (1) 52-53. En. (*Fd. R.A. Abstr.* 1973, 26 (6) 348.)

73 060
The long term management of animal manures. *Land treatment. O'CALLAGHAN, J.R.; DODD, V.A.; POLLOCK, K.A. (Dep. Agric. Engng., Univ. Newcastle, Newcastle-upon-Tyne, England.) *J. Agric. Engng. Res.* 1973, 18 (1) 1-12. En.

See also: 064, 082, 099, 134, 138, 149.

MUNICIPAL SOLID WASTES

73 061
Pulverisation and tipping of municipal wastes. *Windrow composting prior to tipping. Addition of sewage sludge. MARSDEN, A. (Deputy Borough Engr., Poole County Borough, Poole, England.) *Chem. Engr.* 1973 (270) 80-85. En.

73 062
Treatment and disposal of solid waste: resource recovery aspects. *Town and industrial waste. PATRICK, P.K. *Chem. & Ind.* 1973 (12) 551-553. En.

73 063
Packaging and environmental protection. STREIT, W. *Flussiges Obst* 1973, 40 (2) 56-58. De.

73 064
Effect of town refuse processed in different manners on microbial and biochemical changes in soil and on the production of some crops. *Abstract. KOSATKOVA, F.; LOBL, F.; KADANKOVA, Z.; CHALUPSKA, K. (Inst. Pl. Nutr., Prague-Ruzyne, Czechoslovakia.) *Folia Microbiol.* 1973, 18 (2) 170. En.

73 065
Upgrading cellulytic waste for recycling. *Cellulosic waste. Town waste. Composting. Farm waste. FULBROOK, F.A.; BARNES, T.G.; BENNETT, A.J.; EGGINS, H.O.W.; SEAL, K.J. (Biodetn. Inf. Cent., Univ. Aston, Birmingham, England, B4 7PF.) *Surveyor* 1973, 141 (4205) 24-27. En.

73 066
The biodegradation of certain components of town waste by thermophilic fungi. MILLS, J. *Ph.D. Thesis, University of Aston in Birmingham, England,* Mar. 1973, 232pp. En.

See also: 036, 056, 058.

INDUSTRIAL SOLID WASTES

See: 062.

MUNICIPAL WASTEWATER

73 067
Biological treatment of wastewater by yeasts. *Domestic wastewater. *Rhodotorula.* THANH, N.C.; SIMARD, R.E. (Inst. Technol. Agric., St.Hyacinthe, Que., Canada.) *J. Wat. Pollut. Control Fed.* 1973, 45 (4) 674-680. En.

73 068
Industrial use of renovated municipal wastewater. *Biological treatment. Microbial growth. WEDDLE, C.L.; MASRI, H.N. (Bechtel Corp., San Francisco, Ca., U.S.A.) *Trans. Am. Soc. Mech. Engrs. D - J. Engng. Ind.* 1973, 95 (1) 401-409. En.

73 069
Treatments in municipal plants: innovations for removal of phosphorus. *Eutrophication prevention. Biological and other techniques. JONES, P.H. (Univ. Toronto, Canada.) *Wat. Res.* 1973, 7 (1-2) 211-226. En.

73 070
Sanitary aspects of sludge treatment. *Sewage. Dehydration. Stabilisation. Disinfection. Bacteria. LECLERC, H.; BROUZES, P. (Inst. Pasteur, Lille, France.) *Wat. Res.* 1973, 7 (3) 355-360. En.

73 071
Denitrification. Studies with laboratory-scale continuous-flow units. *Sewage. DU TOIT, P.J.; DAVIES, T.R. *Wat. Res.* 1973, 7 (3) 489-500. En.

73 072
Renovation of domestic wastewater. *Canada. Biological-chemical-physical pilot plant. BESIK, F. (Dep. Appl. Chem., Ontario Res. Fdn., Sheridan Pk., Ont., Canada.) *Wat. Sewage Wks.* 1973, 120 (4) 78-83. En.

See also: 009, 010, 012, 013, 015.

INDUSTRIAL WASTEWATER

73 073
Environmental protection: a challenge for chemical engineering. *Industrial waste treatment. BEHRENS, D. (DECHEMA, 6000 Frankfurt a.M. 97, Postfach 97 01 46, Germany.) *Chem. Engr.* 1973 (271) 143-150. En.

73 074
Effluent water and wastes: main points in environmental problems of industrial production. NIEMITZ, W. (Inst. Wasser-, Boden-u. Lufthyg. des Bundesgesundheitsamtes, 1 Berlin 33, Germany.) *Fette Seifen Anstrichmittel* 1973, 75 (1) 1-7. De. en. fr. ru.

73 075
Trade effluents, noxious materials and toxic wastes. LLOYD, D.; TAYLOR, G. *Publ. Cleansing* 1973, 63 (6) 118-126. En.

73 076
Cooling towers and water quality. *Reduction of pollution by organisms in tower ponds. ROSS, F.F.; WHITEHOUSE, J.W. (CEGB, Res. Dep., Courtenay House, London, England, EC4P HEB) *Wat. Res.* 1973, 7 (4) 623-631. En.

See also: 010, 025.

AGRICULTURAL WASTES

See: 036, 065, 096.

ANIMAL WASTES

73 077
Livestock waste control systems: how to make sure they're a solid investment. *Economics. ANON. *Agric. Finance* 1973, 15 (2) 38, 40, 42-44. En.

73 078
Keep clean water out of slurry tanks. *Farm animal wastes. Keeping rainwater separate. MAGILL, D. *Agric. N. Ir.* 1973, 47 (11) 397-399. En.

73 079
Guidelines for controlling pollution from livestock feeding operations. WILLIAMSON, A.W.; McNAMEE, M.A. (Wyoming Dep. Hlth. & Soc. Serv., Laramie, Wyoming, U.S.A.) *Bull. Wyoming Agric. Ext. Serv.* 1973 (B-580) 7pp. En.

73 080
Animal husbandry and environmental protection. *Farm animal wastes. Disposal. RIEMANN, U. *Landtechnik* 1973, 28 (5) 149-153. De.

73 081
Microbiology in the aerobic treatment of farm waste. GRAINGER, J.M. (Univ. Reading, Reading, Berks., England.) *Process Biochem.* 1973, 8 (3) 28-30. En.

73 082
Animal waste utilization for pollution abatement. *Land treatment. CROSS, O.E.; MAZURAK, A.P.; CHESNIN, L. (Agric. Engng. Dep., Univ. Nebraska, Lincoln, Nb., U.S.A.) *Trans. ASAE* 1973, 16 (1) 160-163. En.

HYDROCARBONS & PETROLEUM

73 112
Utilization of n-paraffins and vitamin B6 production by *Pichia guilliermondii* Wickerham. NISHIO, N.; SAKAI, K.; FUJII, K.; KAMIKUBO, T. (Dep. Ferment. Technol., Hiroshima Univ., Japan.) *Agric. Biol. Chem.* 1973, 37 (3) 553-559. En.

73 113
Alkane oxidation in *Candida tropicalis*. GALLO, M.; BERTRAND, J.C.; ROCHE, B.; AZOULAY, E. (Lab. Chim. Bact., CNRS, 13274 Marseille Cedex 2, France.) *Biochim. Biophys. Acta* 1973, 296 (3) 624-638. En.

73 114
Selective substrate utilization by marine hydrocarbonoclastic bacteria. *Crude oil. Paraffins, isoparaffins, cyclo-paraffins, aromatics. Classification of bacteria. SOLI, G.; BENS, E.M. *Biotechnol. Bioengng.* 1973, 15 (2) 285-297. En.

73 115
Dependence of microbiological vulnerability of petroleum oils on their hydrocarbon composition. KREIN, S.E.; LITVINENKO, S.N.; BESSMERTNYI, K.I. *Khim. Teknol. Topliv Masel* 1973 (4) 26-30. Ru.

73 116
Increase in the speed of the biodegradation of crude oil by bacteria. *Addition of nitrogen and phosphorus. FUSEY, P.; OUDOT, J. (Cen. Nat. Etudes Protecn. Aliment., Mater. & Etres Vivants, Paris, France.) *Mater. Organism.* 1973, 8 (2) 157-164. Fr. dt. en. es.

73 117
The isolation and characterization of hydrocarbon-utilizing bacteria from Chedabucto Bay, Nova Scotia. *Marine oil spills. CUNDELL, A.M.; TRAXLER, R.W. (Dep. Pl. Path.;Ent., Univ. Rhode Island, Kingston, RI., U.S.A.) *Proc. Jt. Conf. Prev. & Control Oil Spills, Am. Petrol. Inst., N.Y.*, 1973, 421-426. En.

See also: 051.

BIOCIDES

73 118
Varying persistence of polychlorinated biphenyls in six California soils under laboratory conditions. *Microbial degradation. IWATA, Y.; WESTLAKE, W.E.; GUNTHER, F.A. (Citrus Res. Cen., Univ. Calif., Riverside, Ca.92502, U.S.A.) *Bull. Envir. Contam. Toxicol.* 1973, 9 (4) 204-211. En.

73 119
The bacterial degradation of 5-amino-4-chloro-2-phenyl-3(2H)-pyridazinone. *Herbicide. Pyrazon. Pyramin. DE FRENNE, E.; EBERSPACHER, J.; LINGENS, F. (Inst. Mikrobiol. u. Molekularbiol., Univ. Hohenheim, Stuttgart-Hohenheim, Germany.) *Eur. J. Biochem.* 1973, 33 (2) 357-363. En.

73 120
Evaluating wood preservative methods with respect to environmental pollution. WILLEITNER, H. (Inst. Holzbiol. u. Holzschutz, Hamburg-Lohbrugge, Germany.) *Holz Roh- u. Werkstoft* 1973, 31 (3) 137-140. De. en.

73 121
Fate of aldrin-^{14}C in potatoes and soil under outdoor conditions. KLEIN, W.; KOHLI, J.; WEISGERBER, I.; KORTE, F. (Inst. Okol. Chem. Gesellsch. Strahlen u. Umweltforsch. mbH., Munich, Germany.) *J. Agric. Fd. Chem.* 1973, 21 (2) 152-156. En.

73 122
Isomeration of gamma-BHC to alpha-BHC in the environment. *Pseudomonas putida. BENEZET, H.J.; MATSUMURA, F. (Dep. Ent., Univ. Wisconsin, Madison, Wi.53706, U.S.A.) Nature 1973, 243 (5407) 480-481. En.

73 123
Microbial degradation of several acetamide, acylanilide, carbamate, toluidine and urea pesticides. KAUFMAN, D.D.; BLAKE, J. (Agric. Res. Cen., ARS, USDA, Beltsville, Md.20705, U.S.A.) Soil Biol. Biochem. 1973, 5 (3) 297-308. En.

DETERGENTS

73 124
Biodegradability of nonionic surfactants: screening test for predicting rate and ultimate biodegradation. STURM, R.N. (Procter & Gamble Co., Cincinnati, Oh.45217, U.S.A.) J. Am. Oil Chem. Soc. 1973, 50 (5) 159-167. En.

73 125
New route to biodegradable detergents. MARTY, C.; MAURIN, J.; WEISANG, E. (Compagnie Francaise de Raffinage, Le Havre, France.) Soap Cosmet. Chem. Spec. 1973, 49 (1) 31-34, 52, 54, 56. En.

73 126
Testing detergents with regard to active environmental protection. *Standardisation. Legislation. FISCHER, W.K. (Henkel & Cie GmbH, Dusseldorf, Germany.) Textilveredlung 1973, 8 (1) 11-18. De. en.

MISCELLANEOUS COMPOUNDS

73 127
The action of n-butyric, n-hexanoic and iso-butyric acids on the respiration of Candida tropicalis. BELL, G.H.; TRANCART, P. (Soc. Int. Rech. des Quatre Filles, 28-Epernon, France.) Antonie van Leeuwenhoek 1973, 39 (1) 129-136. En.

73 128
The metabolism of long-chain fatty acids and alcohols by Candida tropicalis and Saccharomyces cerevisiae. BELL, G.H. (Soc. Int. Rech. BP, Rue des Quatre Filles, 28-Epernon, France.) Antonie van Leeuwenhoek 1973, 39 (1) 137-149. En.

73 129
Microbiological transformations of nonsteroidal structures. 4. Microbiological cleavage of a nitrofurane derivative. *5-methoxy-2-(5-nitrofurfurylidene)-1-indanone. WIEGLEPP, H.; HOYER, G.-A.; KIESLICH, K. Chem. Ber. 1973, 106 (4) 1303-1308. De. en.

73 130
Production of L-glutamic acid by methanol-utilizing bacteria. *Methanomonas methylovora. OKI, T.; KITAI, A.; KOUNO, K.; OZAKI, A. (Sanraku-Ocean Co. Ltd., Fujisawa 251, Japan.) J. Gen. Appl. Microbiol. 1973, 19 (1) 79-83. En.

73 131
Substrate inhibition of the growth of bacterium NCIB 8250 by phenol. *Waste treatment. JONES, G.L.; JANSEN, F.; McKAY, A.J. (Wat. Pollut. Res. Lab., Stevenage, Herts., England.) J. Gen. Microbiol. 1973, 74 (1) 139-148. En.

SPECIFIC INDUSTRIES

FOOD INDUSTRY

73 132
Biological treatment of potato chips waste water by yeasts. *Rhodotorula glutinis. SIMARD, R.E.; BUSQUE, G.; RIEL, R.R. (Dep. des Vivres, Univ. Laval, Quebec 10, Canada.) Can. Inst. Fd. Sci. Technol. 1973, 6 (1) 32-36. Fr. en.

73 133
Joint waste plant benefits GF and village. *General Foods. Food processing wastes. ANDERSON, R.; JOHNSON, D.; SU, J.J. Fd. Engng. 1973, 45 (2) 74-75. En.

73 134
Conditioning and didposal of solids from potato wastewater treatment. *Spray irrigation. Anaerobic digestion. Separation. RICHTER, G.A.; SIRRINE, K.L.; TOLLEFSON, C.I. (CH2M/HILL, P.O. Box 428, Corvallis, Or.97330, U.S.A.) J. Fd. Sci. 1973, 38 (2) 218-224. En.

73 135
Biological treatment of sauerkraut waste. *Candida utilis. Geotrichum candidum. Saccharomyces cerevisiae. S. fragilis. HANG, Y.D.; SPLITTSTOESSER, D.F.; LANDSCHOOT, R.L.: N.Y. Fd Life Sci. Q. 1973, 6 (1) 7-8. En. (Fd. R.A. Abstr. 1973, 26 (6) 349.)

73 136
Waste disposal control in the fruit and vegetable industry 1973. JONES, H.R. Park Ridge, N.J., Noyes Data Corpn., 1973, 261pp. En. Pollut. Technol. Rev. no. 1. ISBN 0-8155-0466-7. Price $36.

FERMENTATION INDUSTRIES

73 137
Effluents from malting and brewing. *Pollution. Treatment. Economics. ISAAC, P.C.G.; ANDERSON, G.K. (Dep. Civ. Engng., Univ. Newcastle, Newcastle-u-Tyne, England.) J. Inst. Brew. 1973, 79 (2) 154-165. En.

73 138
Effect of industrial mycelial residues, wood fiber wastes and chitin on plant-parasitic nematodes and some soilborne diseases. *Plant pathogenic fungi. Land treatment. MILLER, P.M.; SANDS, D.C.; RICH, S. (Dep. Pl. Path. & Bot., Connecticut Agric. Exp. Stn., New Haven, Ct.06504, U.S.A.) Pl. Dis. Reptr. 1973, 57 (5) 438-442. En.

73 139
Survey of methods of treating wine and grape waste water. *Review. TOFFLEMIRE, T.J. (N.Y. State Dep. Envir. Conserv., Albany, NY.12201, U.S.A.) Tech. Pap. Envir. Qual. Res. & Dev. Unit, N.Y. St. Dep. Envir. Conserv. 1973 (25) 24pp. En.

73 140
Recovery of materials from the wastewater from wine distilleries by drying the mixture of solid and liquid wastes. *Alternative to slow biological purification. DUCELLIER, G. (Natn. Sup. Sch. Agric., Montpellier, France.) Wat. Res. 1973, 7 (4) 595-598. En.

CHEMICAL INDUSTRY

73 141
Anaerobic lagoon pretreatment of petrochemical wastes. HOVIOUS, J.C.; CONWAY, R.A.; GANZE, C.W. (Union Carbide Corp., S. Charleston, WV., U.S.A.) J. Wat. Pollut. Control Fed. 1973, 45 (1) 71-84. En.

73 142
Disposal of wastes from the chemical industry. HORVATH, J.G.; MACDONALD, J.O.S. *Process Technol. Int.* 1973, 18 (1-2) 61, 63. En.

73 143
The chemical industry and the environment. *Poland. PALUCH, J. (Zaklad Ochrony Srodowiska Regionow Przemyslowych PAN, Zabrzu, Poland.) *Przem. Chem.* 1973, 52 (1) 26-29. Pl.

73 144
Economic problems of water utilisation and sewage in the Polish chemical industry. KORYTKOWSKI, J. *Przem. Chem.* 1973, 52 (1) 39-42. Pl.

WOOD PRESERVATIVE & BIOCIDE INDUSTRY

See: 120.

PULP & PAPER INDUSTRY

73 145
Pond aerators for biological effluent treatment. *Pulp and paper industry. DUBITSKAYA, N.I.: *Bumazh. Prom.* 1970, (5) 11-13. Ru. English translation. 1973?, 6pp.

73 146
Treatment of sulfite pulp and paper mill waste. BARTON, C.A.; BYRD, J.F.; EBERHARDT, W.A.; HULLAR, G.C. (Procter & Gamble Co., Cincinnati, Oh., U.S.A.) *J. Wat. Pollut. Control Fed.* 1973, 45 (1) 25-43. En.

73 147
Pulp, paper and board in the environment. 2. Water usage in the British paper and board industry. *Waste-water treatment. TRUMAN, A.; ISABELL, R. *Paper* 1973, 179 (4) 177-178. En. (*PIRA Pap. Brd. Abstr.* 1973, 6 (6) 238.)

73 148
Kraft multistage bleach plant effluents. *Pulp and paper industry. NICHOLLS, G.A. (Inst. Pap. Chem., Appleton, Wi.54911, U.S.A.) *Tappi* 1973, 56 (3) 114-119. En.

73 149
Industrial land application sprayfield disposal and wildlife management can coexist. *Pulp and paper industry waste. GUERRI, E.A. (Weston Pap. & Mfg. Co., Terre Haute, In., U.S.A.) *Tappi* 1973, 56 (4) 95-97. En.

73 150
The activated sludge process using high-purity oxygen for treating kraft mill wastewater. GRADER, R.J.; SOUTH, W.D.; DJORDJEVIC, B. (Union Carbide Corp., Tonawanda, NY.14150, U.S.A.) *Tappi* 1973, 56 (4) 104-107. En.

TEXTILE INDUSTRY

73 151
Reusing treated wastewater: will it work in the plant? *Textile industry. Biological treatment. PORTER, J.J. (Clemson Univ., Clemson, SC., U.S.A.) *Am. Dyestuff Reptr.* 1973, 62 (4) 79, 80, 82. En.

73 152
Difficulties in environmental protection: panel discussion on ecology. *Report of general meeting of Schweizerische Vereinigung von Farbereifachleuten. Textile industry wastes. DURIG, G. (Ciba-Geigy AG, CH-4002, Basel, Switzerland.) *Textilveredlung* 1973, 8 (1) 3-5. De. en.

73 153
Textile printing in the light of active environmental protection. *Dyes. Effluent disposal. Pollution. SCHAUB, A. (Ciba-Geigy AG, CH-4002 Basel, Switzerland.) *Textilveredlung* 1973, 8 (1) 25-30. De. en.

73 154
Pollution control in the textile industry 1973. JONES, H.R. Park Ridge, N.J., Noyes Data Corpn., 1973, 324pp. En. *Pollut. Technol. Rev.* no.2. ISBN 0-8155-0470-5. Price $36.

METAL INDUSTRY

73 155
Some conservation problems in the metal-finishing industry. *Liquid waste. Treatment. Water reuse. CHALMERS, R.K. (Bostock Hill & Rigby Ltd., 35-39 Birchfield Road, Birmingham, England, B19 1SU) *Chem. & Ind.* 1973 (12) 554-557. En.

73 156
Primary treatment of blast furnace gas washing effluent. MYATT, R.T.; ASTON, R.J.; JOHNSON, K.S. (Br. Steel Corp., Bilston, Staffs., England.) *Envir. Pollut. Mgmt.* 1973, 3 (1) 43, 45-47. En.

MINING INDUSTRY

See: 052-054.

COKE INDUSTRY

73 157
A bibliography on the pollution aspects of coke ovens. BRINN, D.G. *Open Rep. Br. Steel Corp.* undated (SM/TN/1/25) 10pp. En.

73 158
The role of micro-organisms in waste tip-lagoon systems purifying coke-oven effluents. *Aerobic bacteria. Phenols. Thiocyanate. STAFFORD, D.A.; CALLELY, A.G. (Microbiol. Dep., Univ. Coll., Cardiff, Wales, CF2 1TA) *J. Appl. Bact.* 1973, 36 (1) 77-87. En.

ENGINEERING INDUSTRY

73 159
Integrated pollution control in a new plant. *Engineering. Waste disposal. Reuse of water. HOCKENBERRY, H.R.; LIESER, J.E. (Timken Co., Canton, Oh.44706, U.S.A.) *Lubric. Engng.* 1973, 29 (1) 7-11. En.

ORGANISMS

BACTERIA

73 160
Quantification of Gallionella development under natural conditions. *Drainage system. HANERT, H. (Bot. Inst., Tech. Univ., Braunschweig, Germany.) *Arch. Mikrobiol.* 1973, 88 (3) 225-243. En.

73 161
Factors which influence the enumeration of *Bdellovibrio bacteriovorus* in sewage and river water. STAPLES, D.G.; FRY, J.C. (Dep. Appl. Biol., Univ. Wales Inst. Sci. & Technol., Cardiff, Wales, CF1 3NU) *J. Appl. Bact.* 1973, 36 (1) 1-11. En.

73 162
A medium for counting aquatic heterotrophic bacteria in polluted and unpolluted waters. STAPLES, D.G.; FRY, J.C. (Dep. Appl. Biol., Univ. Wales Inst. Sci. & Technol., Cardiff, Wales, CF1 3NU) *J. Appl. Bact.* 1973, 36 (1) 179-181. En.
